# Breaking the Silence

created for Refugee Week 2003 by  
Exiled Writers Ink!  
with Somali Women from  
Horn of Africa Women's Association  
in collaboration with  
Evlynn Sharp and Dictynna Hood

Somali women proclaim with anguish, "Our voice is not heard, our voice is silenced. The world only hears the man's voice, not the woman's."

Neither does the UK hear the voice of this hidden group. Now they speak out, breaking the silence, sharing with you their journeys, struggles and innermost thoughts.

**Breaking the Silence** is a powerful and emotional work of experimental multi-media theatre created by Exiled Writers Ink with the Horn of Africa Women's Association.
